M&A STAFF EARN EMPLOYEE OF THE QUARTER DESIGNATION

Arthur N. Mabbett, President, Mabbett & Associates, Inc. (M&A), Environmental Consultants & Engineers, Bedford, MA recently announced the following:

Darren J. Andrews and Zach St. Jean of the Mabbett & Associates, Inc. (M&A), Bedford office, recently were each awarded M&A's Employee of the Quarter Award. The award is presented to an M&A employee for demonstrating outstanding commitment to client service, quality work, leadership, productivity, and personal career development.

Darren was the firm's first recipient of the award for the period May – July 2008. His notable accomplishments during the quarter included: his positive participation and can-do attitude on an out-of-state lead and asbestos project, high client satisfaction and renewal of an M&A contract to provide industrial wastewater operation and maintenance services, and his responsiveness to client needs by conducting off-shift wastewater late night sampling and on-site emergency services. Darren serves as an Environmental Technician and CAD Designer in the firm's Site Assessment & Remediation Group.

Zach was the firm's second award recipient for the period covering August – October 2008. His notable accomplishments during this quarter included his outstanding service to the U.S. Department of Veterans Affairs Chemical Tracking Project. Zach's consistent efforts to make sure the project remained on schedule, while maintaining project quality and managing multiple field teams have been recognized by M&A and others outside the firm. The project also required Zach to spend multiple weeks repeatedly on the road. Zach has also demonstrated a commitment to professional development, earning his Grade 2-I WWT operator license. Zach serves as an Environmental, Health and Safety (EH&S) Consultant in the firm's EH&S Group.

M&A is an award-winning firm and provides integrated multi-disciplinary consulting and engineering services in environmental, health and safety management, waste minimization/pollution prevention, site assessment and restoration, environmental pollution control, energy, occupational safety and health, and training to industry, commercial enterprise and public agencies. For more information regarding M&A, visit the firm's website at www.mabbett.com.
