**ST ELIZABETHS CAMPUS DEVELOPMENT TEAM
AWARDED JAMES D. P. FARRELL BROWNFIELD PROJECT OF THE YEAR**

BEDFORD, MA (June, 2011) - Mabbett & Associates, Inc. (Mabbett), is pleased to announce that the firm along with the U.S. General Services Administration (GSA), U.S. Department of Homeland Security (DHS)/U.S. Coast Guard (USCG), Tishman/AECOM Joint Venture (TAJV) and WSP Energy and Environment received the James D.P. Farrell Brownfield Project of the Year Award sponsored by the Environmental Business Council (EBC) of New England.

The prestigious James D. P. Farrell Brownfield Project of the Year Award, established by resolution of the EBC Board of Directors, is awarded to a Brownfield project which serves as an example of excellence notwithstanding the social, economic, technical and institutional challenges imposed.

The award was presented to the team at the EBC 21st Annual Meeting and EBEE Awards Celebration on June 8, 2011. This project is being recognized for the redevelopment of the former St. Elizabeths Hospital Campus, Washington, D.C. and the new USCG Headquarters Building targeting LEED® Gold certification.

The GSA is leading the development of the new USCG headquarters at the St. Elizabeths campus, a National Historic Landmark in Washington, D.C. The project team has worked diligently to ensure that environmental requirements are met while still achieving critical construction milestones at the largest ARRA funded construction project in the country. When complete, the entire DHS will be relocated to the St. Elizabeths site.

"I want to thank the EBC of New England for recognizing the St. Elizabeth's Project Team," commented Paul Steinberg, P.E., LSP, Mabbett's Program Manager. "This is a ground-breaking project and we are pleased to be working alongside many talented professionals. "

"The firm is honored to serve the U.S. government on this noteworthy project," Arthur Mabbett, President stated. "Our firm's project staff has worked a rigorous 24/7 schedule to help ensure that project milestones were met. Together with our contractor Tishman/AECOM and subcontractor WSP, we've established a competent team of professionals to meet project-mission critical requirements."

Mabbett is an award-winning firm that provides integrated multi-disciplinary environmental, health and safety and sustainable energy consulting and engineering services. For over 30 years, Mabbett has delivered value-added
